Dhaka-1207

Diploma in Social Compliance

Rationale

Over the last years, Ready Made Garments (RMG) sector experienced impressive growth rates, and specifically woven and knitwear products are in high demand by the USA and European markets. Adherence to national and international compliance standards has become increasingly important to ensure customer requirements as well as to maintain the sector's competitiveness, but in many cases factory staff still lacks adequate skills and knowledge to ensure that required compliance standards are reached. With this **Diploma in Social Compliance**, BIM addresses the need to increase the knowledge level of factory practitioners and other interested parties on major Social, Environmental, Quality and Productivity issues in order to contribute to the sector's competitiveness and to play a major role for job, income generation and national economy.

Description

The diploma course in Social Compliance is designed to suit the requirements of social compliance officer/ manager, human resource and welfare officers/managers and all those who wish to build a career in a profession which demands in-depth knowledge on social compliance issues. The course has a focus on compliance needs of the export sector industries, and a strong practical orientation. Activities go through apart from class room, participants have to an internship program during which they will learn how to conduct a factory compliance audit and implement measures to correct non-compliances. At the end they have to submit a social and environmental audit report on initial findings, recommendations and progress achieved.

Course Objectives

The course aims to equip participants with knowledge and skills needed to:

- identify and solve compliance-related problems in the workplace
- Conduct factory audits and write audit reports.
- Build expertise in relevant area.
- Build career as a compliance and HR/ Admin Manager for Garment and other export-oriented industries.
