To

Course on “Operations & Supply Chain Management including 4IR”

WHO SHOULD ATTEND

This course is suitable for all level of managers and executives employed in Public sector, NGOs, Private and others organizations who are responsible for operations and supply chain management and willing to develop their career as professional on operations and supply chain management and application of 4IR in SCM.

ELIGIBILITY FOR THE COURSE

Any individual, graduate from any discipline working in private, public and NGO or self-employed.

BACKGROUND OF THE COURSE

The purpose of this training course is to provide competency-based training to enable participants to develop a comprehensive understanding of the knowledge and skills in respect to Supply Chain Management for improving productivity and competitiveness with a view of restructuring the organizational functions to create a value-added based thinking in the organization.

OBJECTIVES

The course is designed to provide the concepts about operations and supply chain management in order to efficient organizational functions and meeting the demand of 4IR. It is expected that after the successful completion of the course, participants will be able to:

- Understand the theoretical fundamentals of the operations and supply chain management.
- Give a general description of the supply chain management using, as appropriate, typical examples.
- Understand and interpret the analysis results.
- Apply knowledge in a practical manner using detailed procedures including 4IR perspective.

COURSE OUTLINE

- Operations and Supply Strategy
- Product and Service Design
- Strategic Capacity Management
- Process Analysis
- Supply Chain Strategy
- Logistics and Facility Location
- Lean Manufacturing
- Enterprise Resource Planning
- Demand Management and Forecasting
- Inventory Control
- Application of 4IR in SCM
