## Present Employment Status

---

'**Management Counsellor**' at Research, Evaluation and Publication Division of **Bangladesh Institute of Management (BIM)**.

The position includes responsibilities of a faculty member of the institute as well as designing and delivering management trainings, conducting research and consultancy services.

Responsibilities of the present position also include:

- To organize short courses and conduct sessions on various training programs;
- To manage the performance of the organization under Annual Performance Agreement (APA) Framework and generate and update various performance reports by analyzing data;
- To support the preparation and publication of 'Annual Training Program' of 'Annual Training Calendar';

- To act as the focal person for maintaining communication with Ministry of Industries in the aspects of APA, SDG, Industrial Development & Research Coordination Committee (IDRCC);
- To prepare Expression of Interest (EoI) and proposals for various consultancy assignments.

In addition to the above mentioned responsibilities, the present position also includes the responsibility of a full time **Faculty Member** in 1- year long postgraduate diploma courses conducted in BIM as follows-

- To deliver lecture, set question and examine the answer scripts of course titled '**Economics**' and '**Human Resource Development**' in Post graduate Diploma in Human Resource Management and do the same of course titled '**Managerial Economics**' in Post graduate Diploma in Industrial Management.
- To supervise research works (term papers) of the participants of post graduate diplomas.

According to the rules of business of BIM, each faculty member has to design and deliver short trainings independently as 'course coordination'. The responsibility of a course coordinator includes:

- understanding the market demand side of a particular training;
- conducting training research, in case of launching new a courses;
- decide on the contents of the training by consulting with the experts on the field;
- in case of tailor-made trainings, conduction taining need assessment and finalizing contents and methods by consulting with client organization;
- design the curriculum, preparation of the course outline and publication of brochure;
- developing training modules and meterials, and also supervise the reproduction of the training materials as per requirement;
- dessemination of course information and giving answer to any quarey related to the specific course to the potential trainees;
- selecting and colleborating with internal and external resource persons;
- preparing the training budget and taking approval;
- collection of course fees;
- execution of the training which also includes conducting/facilitating some of the sessions;
- issuing certificates and
- preparation of course completion report including financial statement.

## **Professional Achievements**

---

### ***Postgraduate diploma Programs of BIM***

- Delivered 2-credit courses on economics, labour economics, finalcial economics, manegarial economics and human resource development to more than a total of 60 batches of participants of various postgraduate diploma programs, (2005-2015);
- Supervised 100+ research woks of the participants of post graduate level, (2005-2015);
- Reviewed syllabuses of the subject titled 'Economics' and 'Managerial Economics', respectively, for the students of Postgraduate Diploma in Human Resource Management and Postgraduate Diploma in Industrial Management, (2011);
- Developed the course modules and course materials for above mentioned subjects, (2011);
- As part of implementing syndicate discussion on term paper presentation, for the postgraduate students, drafted the rules for 'term paper presentation and syndicate discussion', (2011);
- Facilitated the post graduate diploma cell in managing academic research and solely handled the distribution of term paper supervision- matching the faculty members area of interest with students' proposed area of research, (2009-2011);
- As a part of process improvement of conducting postgraduate programs innovated and implemented a new programs scheduling method for all five diploma programs (9 batches) with a limited number of faculty members which reduce 80% work load of the diploma cell regarding routine preparation and schedule management and save 70% schedule distribution cost,. (2008 & onward);

**Training Management of BIM**

- Update the participants' registration forms for both short and long courses. (2008);
- Prepare the format of course completion report for short courses conducted by BIM (2008);
- Completed the management system analysis for implementing a Training Management System (TMS) for BIM (2011);

**Short Training Programs on Management in BIM**

As a training coordinator, added 5 new courses in the BIM's service line of regular programs from 2009 to 2011. The description of these 5 programs are as follows:

1. **Training on 'Intellectual Property Right'** A 2-week long training on IPRs was successfully launched with 12 participants from high profile organizations with collaboration of Department of Patent, Design & Trademark (DPDT). Training Needs Assessment, designing of training and capacity development of the trainers were supported by World Intellectual Property Organization(WIPO). The training is included in BIM's annual program, 2016-17 for main streaming and sustainable delivery.
2. **Advanced Human Resource Management** A 1-week long evening course offered for senior and mid level HR professionals mainly focused on strategic HRM and cross-cutting issues related to HRM. This is the first ever advanced level regular course on HRM offered from BIM, the oldest Management learning centre of the country. This training is served to three batches in consecutive three years 2009, 2010 and 2011.
3. **Climate Change Issues and Response Strategies** A 1-week long beginner level course offered for anyone interested on climate change related issues with a objective to provide a overview of climate change related discourses. This is the first ever training course on the area of climate change and disaster management in BIM. The program is delivered as a regular program for officials of different NGO sector organizations in January, 2011
4. **Supply Chain Management** A 1-week introductory level course designed and delivered to six batches between 2011 and 2015, with high dependency on external resource persons. Considering its average participation rate, this course has already ranked as one of the highest demanded training programs among the BIM's self initiated training courses of recent period.
5. **Organizational Development and Training Management** With a view to improve the training management capacity of the local corporate houses of the country, this 1-week course was designed and developed. Training managers and executive from various corporate houses, such as, Grameenphone, Ispahani Ltd., Navana Motores Ltd., Apexpharma Ltd. group had joined at the first batch in November, 2011.

Redesign and reintroduced two of BIM's historically premium courses. The description of these 2 programs are as follows:

1. **Project Management: Basic Issues** BIM was the prime project management learning center in '80s and '90s in the country. But for various reasons the offering of training had reduced gradually and in 2008 and 2009, there was no offerings of any regular program from BIM in the area of project management. So, only out of personal interest and initiatives, updated the course contents and these two 1-week long courses were redesigned and successfully reintroduced in December, 2010 and May, 2011 respectively.
2. **Project Monitoring and Evaluation**

Assigned and coordinated two training programs, for testing the collaboration model, as a part of BIM's policy decision of introducing an open-door policy with an objective to increase its delivery of services by joint collaboration with external resource persons. The brief description of these 2 programs are as follows:

1. **Achieving Financial Freedom- Leadership Qualities, Habits and attitudes** This 1-day long program was developed by Mr. Taufail Ahmed, Executive Director, Visionites, Kolkata, India and jointly delivered to 28 participants on 21<sup>st</sup> October, 2011,
2. **Business Communication for professional Excellence** A 1-week long evening course was developed and delivered in collaboratoin with Mr. Ataur Rahman, a renowned houmour writer and English language specialist with an objective to provide general concepts about business communications to orient the participants how to improve their communication skills. The course was conducted from 31<sup>st</sup> October to 4<sup>th</sup> November, 2010.

Cordinated and delivered 7 tailor made training courses to three client agencies. The brief description of these programs are as follows:

1. Three days long training on **'Project Mangement in Telecommunication'** for Aktel Officials. A 24 contact hours' program was delivered from 18<sup>th</sup> to 20<sup>th</sup> January, 2010 to 25 mid and senior level officailas of the then AKtel, lately restructured and rebranded as Robi, with an objective to increase the participants' understanding on basic project management immediately before organizational restructuring and adopting to a projectized management style.
2. Five days long **'Pre Service Foundation Training'** for Supply Chain Development Officers of Hortex Foundation. A 40 contact hours' program was delivered from 18<sup>th</sup> to 22<sup>th</sup> April, 2010 to 10 newly appointed Supply Chain Development Officer (SCDO)s of Hortex Foundation with an objective to orient the the participants' about basic project management issues just before starting their job of networking among different stakeholders of supply chain of the selected agricultural products at field level in 10 different upzillas.
3. Three weeks training course on **"Organizational Effective Management"** for government officials of different agencies. A 60 contact hours' program was delivered from 13<sup>th</sup> February to 1<sup>st</sup> March, 2011 to 20 mid and higher level government officials of different government agencies dealing with transport sector of Bangladesh, such as, Road and Highways Department(RHD), Bangladesh Ralways(BR), Bangladesh Road and Transport Authority(BRTA), BRTC, Dhaka Transport Coordination Board (DTCB). The program aimed to improve participants undersatanding on office management, team building, procurement and project management issues as a part of capacity building of the mentioned agencies.
4. Five days long Training Program on **Business Management and Value Chain Development** A 40 contact hours' program was delivered from 24<sup>th</sup> to 28<sup>th</sup> April, 2011 to the Supply Chain Development Officer (SCDO)s of Hortex Foundation with an objective to upgrate their knowledge level on basic business management and value chain development for the smooth running of their tasks in the field level. As the SCDOs, they have to execute their responsibilities independently in the field level under a sattelite supervision from their head quarter.
5. Three days long Training on **Value Chain Development of High Value Agro Commodity.** A 24 contact hours' program was delivered to three batches of first grade government officials of different field level agriculturatl agencies in January, 2012 with an objective to share and dessiminate the lesson learned from the piloting of the various practical intervantions, by Hortex Foundation, related to improvement of supply chain of agricultural product in 10 upzillas.

- |   |  |
|---|--|
| <p>6. Six days long pair of <b>Trainings for stakeholders of Upazila Governance Project</b></p> | <p>Two 20 contact hours’ programs were delivered to fifteen batches of Upzilla Chairman, Vice Chairman, Upzila Nirbahi Officer and other first grade field level government officials ( a total of 443 participants) of upzila level in May-October, 2013 with an objective to endow them with management concept to improve quality of field level public services to the citizens.</p> |
| <p>7. Five days long Training on <b>Urban Transportation Planning</b></p>                       | <p>A 30 contact hours’ training program was designed by the urban planning experts of top universities of Bnagladesh and delivered to 10 officials of Dhaka Transportation Coordination athority (DTCA) in May, 2014.</p>  |

In addition to the above description, engaged as a regular trainer for two years to conduct sessions on **“Core Competencies and Supply Chain Management (Module-2)”** in the National Training on **“Public Procurement Management”** hosted at BIM, commissioned by World Bank, organized by Central Procurement Technical Unit (CPTU), IMED, Ministry of Planning and Fineurope, a foreign consultancy firm. To the date delivered the similar session to 36 batches of the mentioned training
